## RED AND WHITE BASKETBALL SQUAD BRINGS VICTORY HOME IN FIRST INTER-COLLEGIATE EVENT OF 1921

Score: 28-21 — Team Played Clever, Consistent Game All the Way — Little and Laishley Netted Ten Points Each — Poor Attendance in Kingston Gym.

(Special to the "McGill Daily.")

Inter-collegiate Basketball for 1921 started off with a rush last night, when Old McGill took the league-opener from Queen's with a 28-21 win. To the Basketball Squad goes the credit of drawing the first blood for the Red and White in inter-collegiate sport for 1921, and this a victory over a team that was well trained, fast and altogether characteristic of the staunch old Presbyterian stock at Queen's. Although the recent local exhibitions of the College team have been satisfactory as a training series, such a crucial test as the Queen's-McGill game was watched with eager expectancy, for in this game, as in no other previous encounters this season, the men were called on to show their intercollegiate ranking. The standard of basketball played by the team at Kingston last evening augurs well for the success of the men against all contenders; they worked hard and played consistent basketball—each of the five men on the jump all the time—all of them deserving special credit and appreciative praise.

When the teams pulled out of Bonaventure Station yesterday, they lacked one of the old reliables in "Bones" Little. It was feared that the game would have to be played with "him" still in Ottawa, but he "put one over" on his team-mates and took the short-cut to the Lime-

stone City from the Capital, and was on the floor with his old-time style. If any individual stars can be picked out, the number of points to their credit and the cleverness of their team-work made Little and Laishley the feature-players of the game; each scored ten points. Cec. Hay was, as ever, there with the jump at centre—using his weight and his height. He was a great asset to the team, scoring six of the total points. Kemp and Lou Kern made good at the defence, and by their consistent hard work they kept the play well off the McGill basket at the decisive moments. Lou showed his mettle once again, and played the kind of defence basketball that has been his specialty for a long while. Kemp worked hard, and served to fill in the place that "Monty" graduation from McGill had left open. None of the spares were called on during the course of the evening.

Play started off with Hay getting the jump on Jones. He lobbed the ball over to Little, and "Bones" passed it up the floor and over to Laishley. The ball went from Bib to Hay and the big fellow netted the first point for McGill. Queen's were brought to keener action by the tally, and a few minutes later were in the lead. They kept the lead for a very short time, and then McGill came back with the old-time style and ended the period 18-13 in our favor.

The second period was similar to

the first, except that the game was more decidedly in McGill's favor. The home team kept up a hard pace, but were unable to get the lead. The final whistle blew with McGill the winner, 28-21.

The game was markedly clean and honestly fought all the way. There were comparatively few fouls, and general good feeling throughout. The only casualty was a "wallop" that connected with Laishley in the early stages of the second half. Play was stopped for a few minutes, but was soon resumed with Bib going at full force once more. The McGill men displayed some very efficient close checking, and were only bettered by their opponents in one item—reach. The home team, although much lighter than McGill, used a reach that was very effective. One regrettable incident was the poor attendance at the game. A simultaneous event was the R.M.C.-Queen's (Junior) hockey match played in the adjoining rink, which proved the greater attraction for the Presbyterian element. The teams lined-up as follows:

McGill (28)	Queen's (21)
L. Kern.....Guard...	Lewis
Kemp (2 pts.).....	Mills
Hay (6).....Centre...	Jones (6)
Little (10).....Forward...	Croal (7)
Laishley (10).....	Henderson (9)
Crain.....Sub...	McKinnon
Kern.....	Ellis
Amaron.....	Bonham

Referees—Garfield and Kelli.

With a few minutes to play, the score in the hockey match was 1-1, a tie between R.M.C. seconds and Queen's Juniors.

## VICTORIOUS SQUAD PLAYS AGAIN TO-DAY

Busy Day For Basketball Team.

TO PLAY M.A.A.A.

Scheduled Game in the Highlanders' Armory At 8 p.m.

The McGill Intercollegiate Basketball team returned from Kingston this morning, and after a rest of a few hours will be called upon to play another game with a team that has not been defeated this season. This team is the M.A.A.A. Reds. The game will commence in the Highlanders' Armory at 8 p.m., and it is hoped that a large crowd will be present to watch this match, which should prove to be close and exciting in the extreme. The Highlanders' Armory is large and spacious, and there will be ample room for all spectators who wish to come.

The McGill squad will feel an added confidence in their basketball powers after last night's victory over Queen's, and this should be to their advantage in to-night's game with M.A.A.A.

The men who so ably represented McGill at Queen's last night will take the floor again to-night, and in spite of their long and tedious journey and the hard, gruelling game that they have been through, will be prepared to go after more victories for McGill. None of the spares were used in last night's game, and as they include such men as Amaron, Crain and Marsh Kern, they will prove a great asset to the Red and White squad to-night.

Laishley seems to have hit a great stride lately, and finds the basket with unerring accuracy, while Little has proved to be one of the best shots on the team this season, and has a habit of pulling off spectacular shots from difficult angles that make him a hard man to cover. "Cec" Hay is also a dangerous man for the opposing side, and is always liable to have a break in the luck and score some half-dozen baskets without any loss of time.

Lou Kern and Kemp, on defence, (Continued on Page 2.)

## DR. SPIER TO LECTURE IN MOLSON HALL

Subject of Address Will Be "Life Service."

FAMOUS ATHLETE.

This Is a Great Opportunity For Students of McGill.

To-morrow, Thursday, afternoon at five o'clock, the students of McGill will have the privilege of being addressed by the one-time famous athlete of Princeton University, Dr. Robert E. Spier, who is a great favorite as a lecturer with students throughout this continent. Dr. Spier should be a most interesting speaker, as he has had wide experience with students. As secretary of The American Board of Foreign Missions, he has made tours of visitation to the mission fields in almost all parts of the world, and this fact alone should attract a large audience, as he will undoubtedly have many interesting experiences to relate.

A great tribute to Dr. Spier's outstanding ability has been paid to him by the University of Edinburgh by conferring upon him, a layman, the degree of Doctor of Divinity, an act almost without parallel, there being few other laymen thus honored.

Dr. Spier is also an author. He has written a great many books, some of which are very well known indeed. Among these we might mention "The Mark of a Man," "One Girl's Influence," "Christ and Life." As a preacher and lecturer to students he stands in the very first rank. The subject he will speak on is "Life Service."

Students of all faculties, men and women, are invited to come and hear him Thursday afternoon in Molson Hall at five o'clock.

## SKI CLUB.

Kingan, Sci. '23, will be at the Look-out this afternoon between three and four to take attendance.

There will be several of the Club's best jumpers over at the Montreal Ski Club's jumps at Cote des Neiges, and those wishing to go will have a good chance to get some tips. Any wishing to go who do not know the way can meet Owens, Sci. '23, at the Look-out at three o'clock sharp.

## MEETING OF MCGILL CAN. CLUB HELD

Mr. Frank Keefer Gave Most Instructive Lecture.

CANADA'S HIGHWAYS.

Subject Dealt With Was the St. Lawrence River Project.

A most successful meeting of the McGill Canadian Club was held in the Union at 5.00 p.m., the subject dealt with being "The St. Lawrence River Project." The club was very fortunate in having Mr. Frank Keefer, M.P. for Port Arthur, to speak on this important question, which has such a direct bearing on the future growth and development of the Dominion.

J. C. Farthing, '21, occupied the chair, and opened the meeting by outlining the aims of the McGill Canadian Club. The subjects presented to the Club were those dealing with the economical, social and industrial problems of Canada. The St. Lawrence River Project, though it naturally affects the industries of the country is essentially an economic question. The chairman then introduced the speaker of the evening, Mr. Frank Keefer, who wholeheartedly supports the proposal for the opening up of the St. Lawrence River. Mr. Keefer has brought this question before the Dominion Government and before the International Commission, and he has also interested himself in the Long Sault Rapids project.

Mr. Keefer opened his remarks by saying that his student days were the happiest days of his life. He took exception to the chairman's remark that the (Mr. Keefer) was the highest authority on the St. Lawrence River Project, but he was quite sure that no one else took a greater interest in the scheme than did he himself.

The rapids in the St. Lawrence have been a great drawback to the development of Canada, and this country would have been settled a hundred years sooner if there had been an open passage through to Lake Superior. Mr. Keefer supported this by comparing the St. Lawrence to the Mediterranean Sea, which was such a great factor in the settlement of the countries on its shores. (Continued on Page 3.)

## A PLAYERS' CLUB

Plans which are nearing completion will result in a valuable addition to an under-emphasized branch of student activity, and promise to revive literary, and more especially, dramatic interest.

The majority of the flourishing universities of the continent have thriving dramatic clubs. Some of them put on plays which the students successfully take on tour. McGill is as yet without such an enterprise.

Historians have their Historical Club. The Department of Economics has its Economics Club. Philosophers may develop their theories through their Philosophical Society. The Societe Francaise, the Physical Society, the Chemical Society, play an invaluable part in their respective departments. The Department of English is without such a club of its own. Students working under the guidance of this department, and above all, those taking an active interest in the drama, are offered few opportunities for expression. A players club, a dramatic society, will fill this gap.

Information received points to a meeting within the next few days to consider the formation of such a club. Suggestions already made include the discussion of matters of general dramatic interest. Its greatest benefit will come through the opportunity given to develop the art of the actor. It is hoped that the more prominent actors, during their too infrequent visits to Montreal, will appear before the club, with suggestions and encouragement. A few enthusiastic members could put on two or three plays during a college year.

Students of English Literature, and especially those interested in the drama, will readily recognize the value of such a club. No student can appreciate a drama unless he can see it from the actor's point of view. No critic can deal fairly with a dramatist unless he recognizes the limits set by the actor's art.

A full knowledge of dramatic literature must include some practical knowledge of the presentation of plays, of the mechanism of the stage, a sympathetic understanding of the part played by the actor himself. A Players Club undoubtedly has its value. It should find willing supporters.

## ICE HOCKEY GUIDE

Spalding's Official Ice Hockey Guide and Winter Sports Almanac for Canada, Champlain Provencher, of Montreal, editor, has just been published for the season of 1921. It is a profusely illustrated with photographs of players and teams that have been prominent in ice hockey, the winter game in which Canada stands supreme. Its National Hockey League season, the Allan Cup finals and the successful season of the Ontario Hockey League are reviewed crisply and entertainingly and the records and principal scores are given. The fine achievement of the Canadian players in the Olympic hockey in Antwerp is described by one who was there and, to top all of the other good things, there is a review of the last ice hockey season in each of the provinces. That is a feature which the new volume of interest to every hockey player from St. Lawrence Gulf to Vancouver.

Attention is specially called to the fact that the new volume contains the rules of hockey which govern the sport in all of its branches.

There is a chapter devoted to skating which summarizes the records in an effort to get authentic compilation of those who have established

the "top performances" on the ice in the past. The skating championships are reviewed and in connection with them there is a brief history of early speed skating. Results of figure skating championships are included and the rules for figure skating and speed skating are published for the benefit of those who wish to engage in competition as well as those who wish to conduct competitive events.

Skiing, the winter sport which is growing faster than any recently undertaken pastime in years, is taken up at length, with a compilation of data that gives the exhilarating pastime a foundation for the future. Together with the skiing, there is a chapter on snowshoeing.

The curlers have not been forgotten. There is a record of their achievements and the rules for the sport. Where steel blades sing merrily on the ice and there always is snow for tobogganing and winter hikes, there are also thousands of winter sport lovers, and their feats of recreation and skill are touched upon, including the attention given to winter sport featured by colleges which are favorably located.

There are some excellent hints about obtaining the right kind of skating shoes, the right fit, a suggestion about hockey sticks and ski bindings, all of which will come in handy to those who find the out-door fun of the winter the equivalent of outdoor sport in the open months.

Patronize our advertisers—and tell 'em why.

## NOTICES

Members of executives and others are requested to look under this heading for notices of all futures. Each notice is absolutely official. The Editor will not be responsible for errors in articles unless the time and date are written out in full when they are sent in.

## INTER-CLASS HOCKEY.

The following games will take place this week:

Wednesday, 26th.  
5.15 to 6.15 p.m.—Arts Final '23 vs. '24.

6.15 to 7.15 p.m.—Dentistry vs. Commerce.

Thursday, 27th.  
5.15 to 6.15 p.m.—Science vs. Medicine.

6.15 to 7.15 p.m.—Law Final '21-'22 vs. '23.

Friday, 28th.  
5.15 to 6.15 p.m.—Arts vs. Dentistry.

6.15 to 7.15 p.m.—No game.

Saturday, 29th.  
12 to 1 p.m.—Commerce vs. Science.

2 to 3 p.m.—Medicine vs. Dentistry.

The following games have been played this week:

Monday, 24th—Science '24 defeated Science '23 by 3-1. Med. '23 defeated Med. '25 by 2-1.

Tuesday, 25th—Comm. '23 defeated Comm. '21-'22 by 2-1. Med. '23 defeated Med. '22 by 5-2.

The following teams have qualified for entrance to the Inter-faculty Finals:

Science '24.  
Dentistry '23.  
Commerce '23.  
Medicine '23.

## Eligibility.

By a recent ruling of the Hockey Club, Rule 8 (3) relating to men used by Regular Squads, which reads in part:

Rule 8.—A man shall be ineligible who (3) has previously played in this season in any match on one of the Senior, Intermediate or Junior Hockey Teams shall be interpreted as follows: "played in this season in any match," shall mean participation in a regular game by that team for not less than one-half the actual time of play.

The following ruling with respect to partial students is adopted:

"Any student registered in two or more years may elect with which year he desires to play, but must adhere to his decision thereafter, unless his chosen team shall have been eliminated by default. Nothing in this section shall be taken as preventing double course men from playing with the classes in which they are registered in their respective faculties."

## Practice Hours.

Hours of practice on the Women's Rink will continue as usual. One pair of Pads will be available from the Campus Rink. Pucks may be had on issue.

The following hour is allotted to Science '23:

Monday from 4 to 5 p.m.

The following hour is allotted to Science '24:

Wednesday from 2 to 3 p.m.

The following hour is cancelled: Science '23, Wed. 2 to 3 p.m.

W. WYATT JOHNSON,

Manager.

## INDOOR BASEBALL.

Another very enthusiastic practice was held last evening, a large number turning out. The two teams have not been chosen as yet so everybody has an equal chance to make a place. Another practice will be held this evening from six to seven at which it is most likely the personnel of the teams will be chosen. Everybody out and emulate the spirit shown by our track team, and there is no reason why this branch of athletics cannot be equally as successful. The following are especially requested to be present:

Campbell  
McCullough  
K. Wilson  
Dickle  
Clark  
Gauthier  
Ware  
Zinck  
Chamberlain  
Louis  
Henry  
Weller  
Brusser  
McLaughlin  
Carruthers  
White  
D. O. Macdonald  
Thompson  
Anglin  
Harold  
Lynch  
Vaith

## STUDENTS' COUNCIL.

There will be a meeting of the Students' Council at the Union at five o'clock to-day.

## INTER-CLASS HOCKEY.

The final game in the Arts Inter-Class Hockey will be played from 5.15 to 6.15 p.m. to-day. As this is a very important game, all interested are urged to turn out, especially Arts men. The game will be between Arts '23 and '24. So don't forget Rooters!

The following is the line-up for Arts '24:

Goal—Blundell.  
Defence—Bulgin.

## What's On

### TO-DAY.

4.15 p.m.—Arts '20 meeting.  
5.00 p.m.—Meeting of Students' Council.  
5.15 p.m.—Hockey: Arts Final.  
6.00 p.m.—Indoor Baseball practice.  
6.15 p.m.—Hockey: Comm. vs. Dents.  
7.00 p.m.—Junior "B" Basketball.  
7.15 p.m.—Intermediate Basketball.  
7.30 p.m.—Student Volunteers.  
7.45 p.m.—Junior "A" Basketball.  
8.00 p.m.—Intermediate "B" Basketball.  
8.30 p.m.—Lecture by Mr. Blair.

### COMING.

Jan. 27—Skating Party, Y.M.C.A.  
Jan. 27—Meeting of Arts '18.  
Jan. 27—Lecture by Mr. Carlyle.  
Jan. 27—N.T.D. Skating Party.  
Jan. 28—Union Formal Dance.  
Jan. 28—High School Dance.  
Jan. 29—The Dansant at the R.V.C.  
Feb. 1—Philosophical Society.  
Feb. 1—B. W. and F. Elimination.  
Feb. 2—B. W. and F. Elimination.  
Feb. 2—Ski Dash and Jumping trials.  
Feb. 3—Cercle Francais.  
Feb. 5—Ski Proficiency and Cross Country trials.  
Feb. 5—Hockey: Varsity vs. McGill.  
Feb. 8—Arch. Fancy Dress Ball.  
Feb. 15—Hockey: Queens vs. McGill.

Defence—Layhaw.  
Centre—Cope.  
Wing—Blumenstein.  
Wing—Hough.  
Sub—Ayer.  
Sub—Martineau.  
Sub—Marler.  
Sub—Wheeler.

### JUNIOR "A."

Junior "A" basketball team will play Argos to-night in the Molson gym. Will the following men please be on hand at 7.45 p.m.:

Bryce  
Caplan  
Dobson  
Legg  
Powell  
Rorke  
Silver

### JUNIOR "B" BASKETBALL.

Junior "B" are to play the M.A.A. to-night. The following men are asked to be at the Union by 7 p.m.:

Levy  
Eadie  
Connor  
Finley  
Snyder  
Lawrence  
Conner

### INTERMEDIATE "B" BASKETBALL.

A practice game will be played against the H.B. Y.M.C.A., at their gym, at 8 o'clock.

Clarke  
Tinkles  
Moore  
Fremblatt  
Schwartzman  
Caldwell  
McCaw

are requested to be on hand at the gym, corner Park avenue and St. Viateur, at 8.30 sharp.

### INTERMEDIATE BASKETBALL.

The game against Westmount Y. M. C. A. will be played at 7.15 to-day, in the Molson Hall.

### ATHLETIC ASSOCIATION.

Members of the Athletic Association will meet at Notman's studio at 12.30 on Saturday to have their pictures taken for the McGill 1922 Year Book.

### VARSITY GAMES.

Tickets for the Varsity Hockey and Basketball games will be put on sale next Monday.

### LECTURE BY MR. CARLYLE.

Mr. W. A. Carlyle will give an address on Rio Tinto, in the Chemistry Building, on Thursday.

### LECTURE ON DECAY OF TIMBER IN BUILDINGS.

This evening at 8.30 in the Architectural Lecture Room in the Engineering Building, Mr. R. J. Blair will give an address on "Decay of Timber in Buildings." The lecture will be illustrated by numerous slides. On account of the wide interest in this topic the meeting will be an open one. All are welcome.

### THE FANCY DRESS BALL.

The annual Fancy Dress Ball of the Architectural Society will be held on Feb. 8th. Tickets for this event may be obtained from members of the Department.

The following is the schedule for Gymnasium Classes for the remainder of the week:

Tuesday, Jan. 25th (10 to 11 a.m.)—Science I. A. B. C. D; Science II, Section C. (4 to 5 p.m.)—Commerce I, Arts II, and Architecture II.

Wednesday, 26th (10 to 11 a.m.)—Medicine II, (6-year)—Science I, Sections A and B. (12 to 1 p.m.)—Medicine I, and Architecture I.

Thursday, Jan. 27 (11 to 12 a.m.)—Commerce I, (12 to 1 p.m.)—Science II, A and B, Medicine II, (6-year). (2 to 3 p.m.)—Science II, C and D. (4 to 5 p.m.)—Arts II.

Friday, Jan. 28th (9 to 10 a.m.)—Arts I. (10 to 11 a.m.)—Science I, C and D, Science II, D, Commerce II. (3

## R. V. C. NOTES

### DELTA SIGMA SOCIETY.

The annual Impromptu Speaking Contest takes place this afternoon at 3 p.m. in the Common Room. The subjects will be picked from a "hat"—two minutes allowed for preparation and five minutes for "oration." All out and help make the meeting a success.

### R. V. C. '22.

A meeting of R. V. C. '22 was held at noon yesterday. Miss MacRae called the meeting to order and asked the Yearbook Representative to address the class. Miss Birkett asked the girls if they were willing to assume the sole responsibility of the canvassing for the Yearbook. A discussion of ways and means followed. It was finally moved that the Junior girls undertake the sale of subscriptions, definite plans to be announced later.

Miss Sharples made a timely appeal for cakes and sandwiches for the Undergrad. The Dansant. The response was instantaneous and the meeting adjourned.

### HOCKEY.

The class games have been postponed on Wednesday at 6 p.m. until Saturday at 9.30.

There will be the usual practice to-day at 3 p.m.

### R. V. C. THE DANSANT.

Tickets for the R. V. C. The Dansant next Saturday, Jan. 29th, may be got from any of the following girls:

4th Year—Constance Harvey.  
3rd Year—Mary Fry.  
2nd Year—Dorothy Teed.  
1st Year—Mary McLaren.

### R. V. C. '21.

Class picture at Notman's at one o'clock to-day. All be on time!

Under the new dispensation at Oxford (a statute admitting women to all degrees excepting those of B.D. and D.D., was carried without opposition last May) women were represented for degrees for the first time last October.

Among those presented for the degrees of B.A. and M.A. was Miss Hilda Diana Oakeley, formerly Warden of the Royal Victoria College, upon whom McGill University conferred the degree of M.A. in 1900.

Miss Oakeley was a student of Somerville College, Oxford, and obtained a First Class in Libras Humaniores.

### FOUND.

A copy of Bottomley's Trigonometry tables. Apply to the Secretary, R. V. C.

## PROFESSOR SAYS SYSTEM WRONG

### American Professor Scores Examinations.

At this time of the year when examinations are still fresh in our minds, students are sometimes inclined to doubt the efficacy of the present system.

It is interesting, therefore, to hear of a strong denunciation of examinations made by a university professor last week.

In the course of an address before a group of students, the professor—Frank A. Bernstorff, of the Language Department of Northwestern University—said that exams were ridiculous survivals of past ages. "A student's final grade," he declared, "should depend upon his daily work and intelligence." He pointed out that we have undoubtedly outgrown the period of examinations. "Since," he continued, "they have outlived their usefulness, why don't students get together and sign a petition to have them abolished?"

to 3 p.m.)—Science II, A and B.  
Sat., Jan. 29th (12 to 1 p.m.)—Med. II. (5-year).

### ARTS '23.

Will the following men be at the Campus rink at 5.15 p.m. for the hockey game with Arts '24:

Amaron  
Badger  
Hutchinson  
Cralk  
Cantley  
Johnson  
Dural  
Egg

There will be a meeting of Arts '19 at the Union on Thursday afternoon at five o'clock. All former members of this class are requested to attend. The question of a reunion dinner is to be discussed.

### Arts '20.

There will be a meeting of the class of Arts '20 at four-fifteen to-day in the Union. All members of the class available are requested to be present. Important business is to be discussed.

### LOST.

From Science Building, Keuffle and Esher Slide Rule. Please return to J. T. Quinlan, Science '22.

## Correspondence

The "Daily" is not responsible for the sentiments of letters published in the correspondence columns. Signed communications from graduates, undergraduates and members of the faculties will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office—that they write upon ONE side of the paper ONLY. No communications will be admitted in this column without the name of the writer being attached, not necessarily for PUBLICATION.

McGill University,

Montreal, P.Q.,  
Jan. 25th, '21.

To the Editor, "McGill Daily."

Dear Sir,

At a recent special meeting of the Students' Society, a sum of money was voted from the funds of the Society for charitable purposes. Apart altogether from the desirability of non-desirability of establishing such a precedent, there arises a question of fundamental importance—was this action legal? In other words, has the Students' Society, under the present Constitution, the right to vote its funds for charitable purposes?

Allow me to quote from the Constitution, relative of this matter: Art. V, Sect. 5. "It (the Executive Council) shall control all funds, contributed by the general body of students, to any Undergraduate enterprise."

Art. VIII, Funds. "Each member of the Students' Society shall be required to pay an annual fee of \$10. This sum shall be collected by the Bursar with the regular tuition fees and divided as follows:—Students' Council, \$8; McGill Union, \$3; Undergraduate Societies, \$1. The sum received by the Executive Council shall be used in the maintenance work of grounds, for athletics, in salary to a paid secretary, and in all other student enterprises."

A glance at these extracts, and it is clear that the whole question under discussion depends on the phrases "Undergraduate enterprise" and "student enterprises." Can the expenditure of a sum of money on, say, Polish relief, be legitimately considered as an Undergraduate or a student enterprise? I think that, if we consider the spirit of the Constitution, and the obvious intention of those who worded it, the answer to this question is in the negative. What is evidently meant by the phrase "student enterprise," is a definite activity carried on by the undergraduates of McGill, for the undergraduates of McGill. If the interpretation is correct, neither the Students' Society nor the Executive Council of that Society can legally vote money for outside charitable purposes; if this interpretation is not correct, then let us amend our constitution and so avoid the evils which follow in the train of this unfortunate precedent.

I use the expression "unfortunate precedent" advisedly. To where will this policy lead us? There are innumerable appeals for charity quite as well entitled to our support as the relief of Polish students, and what one more worthy, I would like to ask, than that put forward by our Principal for the assistance of our own returned soldier students, who are unable to complete their education owing to lack of funds? If we give to one charity we must give to all, and our universal fee is not intended to be applied to these purposes.

Another aspect of this question also presents itself. It is an unfortunate but well known fact that the meetings of our Students' Society are not well attended. Rarely are there more than the hundred necessary for a quorum present. Now, supposing we allow a loose interpretation of Article VIII, do we not run a very real risk of having our funds applied to all kinds of "crazy" "student enterprises?" What is to prevent a small group of students from gathering a few supporters—sixty would do—going to one of the meetings of our Society and voting sufficient funds for the purpose of sending a delegate to Poland to supervise the expenditure of our relief donation? Nothing—except a better interpretation of our constitution or a larger attendance of sane students at our meetings.

Trusting that these important points may be worthy of some consideration, and thanking you for your valuable space,

I remain,

Yours, etc.,

C. J. TIDMARSH.

VICTORIOUS SQUAD

PLAYS AGAIN TO-DAY

(Continued from Page 1.)

complete a team that is well balanced and that works well together.

It is unfortunate that this game should come so soon after the game with Queen's, but unfortunately examinations made it impossible for the McGill team to travel to Kingston on January 22nd, as scheduled, therefore these two important matches come uncomfortably close together.

This game should prove to be one of the fastest matches to be seen in the city this season. The Highlanders' floor is one of the best in the city, so all rosters turn out at 8 p.m. to cheer on the Red and White to victory.

## STUDENTS TO MEET AT HALL

### Talk on Missionary Work By Mr. Thomson.

The Student Volunteers, and all who are interested in Foreign Missionary work, are cordially invited to be present at a meeting to be held to-night in Room B, Strathcona Hall. Mr. H. F. Thomson, a graduate in Arts from McGill in 1912, has kindly consented to give an account of his work among the boys in Canton, China. Mr. Thomson is home on furlough after spending some eight years, or more, and has much to tell of what he has seen in that needy field. All who can possibly arrange to come are assured of an hour well spent.

Room B, Strathcona Hall, 7.30 p.m.

## ORPHEUM

ALL THIS WEEK  
"THE UNCHASTENED WOMAN"

## From the "Daily" Files

**R. M. C. Defeated — Medals Awarded For Shooting — Special Arts Exemptions — Theologians Unite — McGill Wins at 1919 Track Meet — Ontario's Caustic Criticism — "How to Pass Examinations" — "The Sherbrooke Record."**

### October Twenty-Seventh.

1913.—The Royal Military College suffered its first defeat when McGill won the football game in Kingston by a score of 30 to 7. The Cadets displayed much spirit, but McGill's four touchdowns proved too much for them.

At the dinner tendered the McGill teams in Kingston by the R.M.C., Dr. Elder praised the Cadets' pluck, which was really an outstanding feature of the day.

Two medals were awarded in a shooting competition at Pointe aux Trembles. The silver medal, for first class shots, was won by Jacques; the bronze medal, for second class shots, was won by Macpherson.

Toronto defeated Queen's in the first game of football of the season by a score of 18 to 3.

Interesting tennis matches were played when Macdonald College defeated the R.V.C. by a score of 4 to 2.

1914.—A meeting was held of the Delta Sigma Society, and the Misses Hardy and White were unanimously elected to represent the club in any debates.

Students were pleased with the new decision arrived at by the Faculty of Arts: that of granting exemption in one subject to undergraduates in that Faculty entering the McGill Regiment. The Departments of Physics and French suffered most.

1915.—A very instructive meeting was held by the Physical Society in the Macdonald Physics Building, when Dr. C. J. Lynde read a paper on Osmosis. Dr. Lynde gave a detailed account of the experiments that had been made at Macdonald College to throw any light on "Osmosis in Sells."

Twenty-five members attended the first dinner of the Cercle Francais. Dr. Villard, the honorary president, was also present.

Science Sophomores were completely snowed under owing to superior weight of their opponents, when the Seniors easily defeated them in a football game by the score of 56 to 5.

1916.—A new governing body for all Theological students was created when the Theological Colleges united to form a society for the students' welfare. A. N. Withey, M.A., was elected president of the Theological Undergraduate Society.

The "Meds." of No. 3 Canadian Hospital formed a society at the front. F. G. Miller was made president of the organization in France. . . . Col. Birkett offered the new society books and every possible assistance to the hospital work.

Dr. Louis Vessot King, of the Department of Physics of McGill University, returned from Philadelphia, where he delivered a lecture on Fog Signals at the Franklin Institute.

1917.—Medicine outgeneraled the strong Science aggregation when it defeated them completely by a score of 9 to 0.

McGill lost to Maisonneuve in the third game of the Intermediate Water Polo Series, when the latter defeated our team by a score of 2 to 0.

1919.—McGill won the Track Championship at the Stadium. McGill made 68 points, Varsity 39 and Queen's 10. Kennedy made the highest aggregate, 17; and Hamilton, also from McGill, came second with 15 points to his credit.

The Macdonald students' soccer team vanquished the staff and employees of the College by a score of 4 to 0.

At the Macdonald annual Field Sports, the Sophomores made a clean sweep of the events.

### October Twenty-Eighth.

1912.—An article entitled "Parodies," and signed "Cheeky Chesty-one," appeared on the front page of the "Daily." The author of this wrote: "All the greatest living authorities on parodies agree that the only way to eradicate this fatal disease from our midst is to abolish the vaudeville house altogether. It is in the atmosphere of this type of theatre that the germs of this insidious disease lurk hidden in the greatest numbers."

Madame Calve, the famous prima donna, was interviewed by a "Daily" representative, through whom she sent a message to the McGill morticians: "Don't forget," she said, "to tell the McGill students that I wish them every success." Madame Calve was about to found a school for singing, in the South of France.

1913.—Shaughnessy introduced a novel play at the Senior term practices. Instead of the usual routine, soccer was played by the football squad. The coach reported McGill's chances for championship very bright.

A new form of exercise was substituted for the gymnasium classes.

when ancient folk dances were introduced at the R.V.C.

1914.—The Architectural Association held its second meeting of the session. Prof. Traquair addressed the members on "Medieval Castles" and their relations to modern forts and dwellings.

Both the Senior and the Intermediate Polo teams of the University were defeated by the M.A.A.A. in very hard fought games.

1915.—Senior Medical men over-loaded an elevator at the Montreal General Hospital and occasioned a totally unexpected four-storey dash to the ground. The fifteen men narrowly escaped death, and one man, Macpherson, was seriously injured.

An unusually large number of new students registered in the School of Agriculture at the Macdonald College. Arts Sophomores were defeated by the Seniors from Macdonald College. Both teams showed splendid form, but good players had to give way for better.

1916.—Medals swamped the Arts representatives in a football game, defeating them by a score of 53 to 7. The Medical team was far heavier and more experienced than the Arts.

Lieut. W. H. Morris was awarded the Military Cross for gallantry at the front. Lieut. Morris was a member of Sci. '16 and of the Princess Patricia's Canadian Light Infantry, and won the much coveted honor for gallant conduct during the big action on the Somme.

Private C. C. Palliser, past McGill student, and then prisoner of war, lauded the Dutch women and told of their great kindness to wounded soldiers.

### October Twenty-Ninth.

1912.—Toronto University defeated Queen's on a sloppy field by a score of 17 to 11, but made a decidedly poor exhibition of football.

The annual Thanksgiving Supper was held at the Stratcona Hall, and several clever speeches were given by Dr. Nicholson, Professor McKernan, Dr. H. J. Barnes and Messrs. McGarry and McNaughton.

For some unknown reason, the McGill team's plays were subjected to caustic criticism. This was by no means the first time that Ontario papers had dealt unfairly with McGill football methods.

1913.—The McGill Literary and Debating Society opened its season in an exceedingly auspicious manner, when Dr. Leacock addressed the members on an extremely timely theme entitled "How to Pass Examinations." This was delivered in the Professor's usual witty and humorous manner. "A special examination is often very good, but generally speaking the regular supplemental in September is the best time. This is true, because during the long vacation the professor has become more human and is more kindly inclined towards all mankind. He has also probably forgotten the finer points of his subject and will not be quite as keen as he is in the spring."

The Juniors defeated the Freshmen in a football game on the Campus by a score of 28 to 2. The Freshmen were decidedly too light to withstand the visitors.

1914.—Military doings of Old McGill attracted the attention of the "Sherbrooke Record." The following was its comment: "The last time I was on the classic ground of the McGill University Campus, I saw the men playing football. When I was there last week I saw them training for a bigger game — a game which has for its ball, the fate of Empires; and for its goal the triumph of right over wrong — the vindication of the honor of a nation's pledged word and plighted troth."

Prof. Rose, in a speech on "Slackers and Their Duties," said that the men who were not drilling were those who did little of anything. He also pointed out some reasons why slackers should leave slacking.

1915.—At the banquet tendered by the Presbyterian College to the Freshmen, several speeches were made that dealt with the various aspects of the European war.

The R.V.C. girls collected for the Red Cross Society. Two girls were stationed at each entrance of all the University buildings. No tags or books were used, in accordance with the rules observed in this ward of the city. The students were most urgently requested to contribute as liberally as possible.

The staff of the McGill Conservatorium of Music gave a splendid recital at the Royal Victoria College.

1917.—Dr. Symonds addressed the students at the Y.M.C.A. on "Religious Problems," and emphasized the difficulties of the Church in dealing with problems of to-day.

Miss Savage won the prize for the

1913.—Shaughnessy introduced a novel play at the Senior term practices. Instead of the usual routine, soccer was played by the football squad. The coach reported McGill's chances for championship very bright.

A new form of exercise was substituted for the gymnasium classes.

A new form of exercise was substituted for the gymnasium classes.

## TICKETS FOR THE DANCANT ON SALE

Event on Jan. 29 Will Be More Enjoyable Than Ever.

Tickets are now on sale for another of those delightful R.V.C. The Dancants. This one is to be held on January 29th, in the R.V.C. Assembly Hall, and will be even better than any of the others. Special care is being taken in regard to all arrangements, and, as usual, there will be excellent music, perfect floor and delicious eats. Miss Cleary has been secured for the afternoon, and her name is a sufficient guarantee that the music will be splendid. The floor is to have a great old polishing before Saturday and should be in excellent condition. Afternoon tea, such as you haven't had since the Christmas holidays, will be served in plenty. Don't you long for some home-made sandwiches and cake? Of course you do, so come along next Saturday and see if everything isn't just as delicious as those at home!

But if you want to be one of the lucky people who share the good time coming, you'll have to get a hustle on. Fewer tickets than usual are being sold, so that those who do come will have lots of room to dance. These tickets are already going like hot cakes amongst the men who have been before and know what fun these teas are, so hurry up and get yours to-day. Any R.V.C. girl can let you have one (or two if you've got a girl) but you'll have to ask her soon! They are only seventy-five cents each, and you'll get several dollars' worth of good time. Get yours to-day!

R.V.C. sports. Many novel events were introduced.

The celebrated McGill graduate, and one of McGill's oldest living graduates, Sir James Grant, Med. '54, was given a card by President Poincaré of the French Republic, in recognition of Sir James' remarks on "The Great French Nationality."

October Thirtieth.

1912.—The Arts Undergraduate Society held a highly successful smoker. A pleasing programme was provided for the Freshmen, and Sophomores in the Union; while Dr. Barnes gave a very interesting lecture.

There was keen competition at the Rifle Contest. J. H. Atkinson won the first prize, making an aggregate score of 99 points at three different ranges. J. T. Bone came second with 92 to his credit.

The Water Polo teams held splendid practices at the tank of the Montreal Swimming Club.

1913.—A new departure in Canadian University circles was made when the Government Forest Products Laboratories formed a department at McGill. The scientific study of Canadian forest conditions was to be undertaken and laboratories were to be built under the joint management of the Dominion Government and the McGill University.

A terrific soccer struggle between the third and fourth years in Arts resulted in a drawn game.

1914.—The first meeting of the Physical Society for the session of 1914-15 was held in the Physics Building. After the officers were elected, Dr. Eve gave an interesting address on "The Detection of a Single Electron."

Lieut. L. S. Brunton had commenced a course of lectures on Military Field Engineering.

1915.—A resolution was passed at an informal meeting of the Students' Council extending a cordial welcome to the members of the Fourth Universities Company, and those privileges connected with the Union, and assuring them of the students' most warm-hearted friendship and support.

Strathcona Hall was the scene of a very pleasant gathering when Freshmen from the different faculties were entertained at a conversat given by the Y.M.C.A., assisted by the Y.W.C.A., and by the ladies of the R.V.C.

The Science Seniors made another overwhelming victory when they defeated the Juniors by trick plays and speed and by a score of 42 to 0.

1916.—The first Monthly Church Service was well attended. A great many students were present when Dr. Griffith-Jones spoke at the Emmanuel Church.

Lieut. J. G. Howell, a student of the class of Arts '12, won the M.C. for gallant flying. With his pilot dead, and himself in imminent peril, the McGill man managed the life of the machine.

Embryo Geologists made the fourth excursion of the year up the Mount Royal and examined the rock formations at various points. Dr. Adams headed the excursion.

1917.—The McGill Alumnae Society did good work for the convalescents, and their efforts, needless to state, were much appreciated by the sick soldiers.

Sir Auckland Geddes, M.B., Ch.B., M.O.I., Professor of Anatomy at McGill, made a visit to Edinburgh in the capacity of British Minister of National Service.

## MEETING OF MCGILL CAN. CLUB HELD

(Continued from Page 1.)

The St. Lawrence watershed is the most remarkable in the world, its natural reservoirs ranging from 602 feet above sea level at Lake Superior, to 500 feet below sea level. Though its tributaries, such as the Ottawa River, vary considerably in height, the annual variation of the St. Lawrence is less than two feet. It is a marvelous system of natural water-works, with nearly four million horse-power conserved in it, of which three-quarters belongs to Canada.

There are two distinct phases in which the St. Lawrence River influences the growth of the country. One is Transportation and the other is Power. In discussing the first, Mr. Keefer showed how the output of Canadian manufacturers and agricultural interests would be increased by the opening up of the St. Lawrence River. For instance, wheat coming through from Western Canada has to be transported by four separate ships before it reaches the Atlantic. If the St. Lawrence River was open to navigation from Lake Ontario to the sea, this wheat would come all the way on one ship. Transportation costs would be greatly reduced, and this would have the effect of increasing production. At the present time, wheat costs eleven cents to be conveyed from Lake Superior to the Atlantic. It would only cost five cents if the St. Lawrence was navigable.

Mr. Julian Barnes, who is in charge of "transportation in the United States, once stated that it would pay Canada and the States to build and rebuild the St. Lawrence each year, on account of the large reduction which would be made in freight charges.

The waterway from Lake Superior to the sea is "cut up at three points—at Sault Ste. Marie, at Niagara, and in the St. Lawrence. There is a canal at Sault, the Welland Canal is now in the process of construction at Niagara, and the St. Lawrence project is put forward for the purpose of continuing this great water highway right through to the Atlantic Ocean.

Mr. Keefer gave some figures which were really surprising to most of those present, and showed what an enormous effect the development of the Great Lakes canal system would have on transportation from inside the country. Between three and four million dollars' worth of dairy products from the Northwest are annually shipped to the coast. One mining company in Montana, U.S., send their metal products over the mountains to Seattle, and down through the Panama Canal to New York. This route costs the company \$5 a ton less than if they shipped them by rail direct. It would save them \$3 a ton more if they sent them to Duluth, and so through the Great Lakes to New York. This would be made possible by the construction of canals on the St. Lawrence, and the company would thus save about half a million dollars a year.

Mr. Keefer then dealt with the question of Power. He stated that one-third of the total freight coming into Canada consisted of soft coal, while an undiminishable amount of "white" coal was flowing away to waste down the St. Lawrence to the sea. The large coal and iron imports from the States had a marked effect on the exchange between the two countries, and these imports would be greatly reduced if our natural resources were developed.

One of the important uses to which this water power could be put would be for the manufacture of nitrogen fixation. "We mine our lands," said Mr. Keefer, "we don't cultivate them!" Though the cost of the project would naturally be high, probably about two or three hundred million dollars, Canada should not feel that she is too hard up to afford the construction of these canals, as they would have such a remarkable effect on the development of the country.

A number of states in America have formed an association known as the St. Lawrence and Great Lakes Tide Waters Association, which is for the forwarding of the St. Lawrence project. The International Joint Commission have also taken the matter up, and it is hoped that one day the scheme will become a reality. Mr. Keefer closed his remarks by suggesting that this feat of modern engineering skill would be a fitting and everlasting memorial to those some of Canada and the United States who fought and died for the same cause, though under different flags.

It would bring the two great English speaking nations closer together, as transportation is the tie of nationality.

Mr. Keefer then asked if anyone wished to ask any questions. Several students took advantage of this offer, and Mr. Keefer dealt with the points raised with that conciseness and knowledge of facts which had characterized every sentence in his most interesting lecture. J. Hall, '21, then voiced the opinions of all those present in a few well-chosen words, and finished by proposing a vote of thanks to the speaker of the evening.

It was certainly the most interesting and instructive lecture which it has been the privilege of the Canadian Club to hear, and the club was very fortunate in having the subject dealt with by one so competent as its activities.

## EXCHANGES

"Daily Illini."

Practically every Senior in the Medical School of Syracuse University is boycotting the annual class ball because of a fee of \$10 which will be charged per ticket. A petition condemning this rate as out of proportion to what most of the students can afford has been circulated widely with the result that the bulk of the pre-meds are holding aloof from all arrangements.

If an instructor in Freshman rhetoric or in any of the advanced English courses for that matter, were to line up his students once a week and bark out of a spelling manual in the good old-fashioned way until the last man "took his seat" there would very probably be a lot of fun poked at him. And yet he would display a vast amount of good sense in doing it. Some of us are unable to spell "box" with any reasonable amount of assurance.

"Columbia Spectator."

The "Daily Iowan" is conducting a search for the typical Iowa girl. A call for sketches describing this rather elusive person was issued, and the winning description chosen from a host of contributors who pictured her all the way from a vain, self-conscious, flapper type to a creature of surpassing loveliness.

The next step in the contest is the choosing of the girl in the university who best fits the winning description. The winner of the contest will have a full page devoted to pictures of her in a future issue of the "Des Moines Register."

Notable forestry demonstrations are being planned by the New York State College of Forestry at Syracuse for the coming year. Among the projects to be undertaken are the reforestation of the city watershed at Yonkers, the planting of at least 50,000 trees in Broome County as the beginning of a great forestry preserve in that county, and the preservation of the Peekskill watershed. The college's winter lecture campaign is also being considerably expanded.

U. of Nevada "Sagebrush."

Mississippi College now has complete student government. They have organized the Student Body Association of Mississippi College, which will be in charge of all college activities. We trust that this new plan may prove satisfactory in every way.

Refusal of chaperons to act at university parties, because they cannot countenance the mode of dancing and because they do not like to remind couples on the floor, is making it almost impossible to obtain chaperons at university affairs at the University of Iowa.

## UNIV. HANDICAP MEETS IN PENNA.

Every Student Eligible to Develop Athletic Prowess.

The All-University Handicap meets were instituted in the University of Pennsylvania on January 21st. The meets are open to every student in the University, both undergraduate and graduate. Except for a few novice events, every event will be a handicap. If the first time an entrant appears he shows that his handicap is insufficient, it will be increased until he is in his proper class. Therefore, it is possible for one to lose an event in one meet, yet with an increased handicap, to win the same event in another meet. Two medals, one silver and one bronze, will be given to the winners of the first and second place in every event.

The meets will take place at four o'clock every Friday, on Franklin Field, beginning January 21, and ending February 25. The events will be divided and a complete list of events will not be run off at every meet. During the course of the six contests there will be run off the following handicap events: The 60, 300, 440, 600, 880-yard, 3/4-mile and mile runs, the 60-yard high and low hurdle races, the pole vault, high jump, running broad jump, hammer throw and shot put. The 60, 300 and 880-yard runs will also be held for novices.

In addition to these events there will be inter-departmental relays of both four and eight laps each, which are to be run by picked men to represent every department of the University. The men will each run two laps. Keen competition and good time are expected to develop in the relays.

Mr. Keefer. It was a pity that more students were not there, as only about seventy-five were present. However, it is hoped that there will be a larger attendance at the next meeting of the club. Yesterday's lecture showed that the McGill Canadian Club is right there when it comes to having good speakers to present subjects which deal intimately with the development of our Dominion, and it is for the students to get behind the club and pack it up in its activities.

Every Sense will tell You

## AROUND THE UNION

At the end of the day when lectures are over and you have the joy of that nothing-to-do-till-to-morrow feeling.

Or after a hearty lunch in The Cafeteria or a goodly game of pills upstairs.

Those are times you'll hear the regulars

*"Call for"*  
**PHILIP MORRIS**  
NAVY CUT CIGARETTES

10 for 15 cents

## A Meeting Place

The Union Cafeteria has always stood out as a meeting place. There over a friendly dish of tea or a hearty luncheon, friends gather to discuss the doings of the day.

Added to its charm as a rendezvous for the undergraduate body stands the Cafeteria's value as a place to eat. You will find that the food is fine and that prices have been based to meet the demands of the most economical end-of-the-month pocket-book.

## NEW ADDITIONS TO THE LIBRARY

A Large Number of Books  
Added During the Last  
Fortnight.

Ravenstein, E. G.—Martin Behaim,  
His Life and His Globe.  
Korbel, W. H.—The Romance of the  
River Plate. 2 vols.  
Campbell, W. W.—Canada.  
Anderson, C. L. G.—Old Panama and  
Castilla del Oro.  
Tinker, C. B.—The Salon and English  
Letters.  
Turner, F. J.—Frontier in American  
History.  
Mann, J. L.—Aegean Days.  
Boudier, H. E.—James Russell  
Lowell. 2 vols.  
Whipple, E. P.—Charles Dickens, the  
Maid and His Work. 2 vols.  
Wendell, Barrett—The Traditions of  
European Literature from Homer  
to Dante.  
Crittwell, Maud—Luca and Andrea  
delia Robbia and Their Successors.  
Cortisio, Royal—John LaFarge.  
Male, Emile—Religious Art in  
France, 13th Century.  
Davies, Randall—Six Centuries of  
Painting.  
Wilson Epiphanius—Cathedrals of  
France.  
Robie, Virginia H.—Historic Styles  
in Furniture.  
Chatterton, E. K.—Ships and Ways  
of Other Days.  
Oney, Thomas—The Old Venetian  
Palaces.

Stratford.  
Edwards, Marian, comp.—A Summary  
of the Literatures of Modern  
Europe. . . . . to 1400.  
Hudson, W. H.—A Quiet Corner in  
a Library.  
Percival, MacIver—Old English Fur-  
niture and Its Surroundings.  
Johnson, A. E.—The Russian Ballet.  
Bull, Ill.  
Geddes, Patrick, and Thomson, J. A.—  
Evolution.  
Mulligan, J. L.—The Beckoning Sky  
Line and Other Poems.  
Machanan, Angus—Wild Life in Can-  
ada.  
Mendel, Pierre—L'Atlantide.  
Hamilton, E. M.—Manual of Cyan-  
idation.  
Waxall, N. W.—Historical and Post-  
humous Memoirs 1772-84. Wheat-  
ley ed. 5 vols.  
Treitschke, H. G. von—History of  
Germany in the 19th Century.  
Eden and Paul, trs. vol. 617.  
Lytton, E. G. E. L. B.—"My Novel,"  
by Plisistratus Caxton (pseud.). 3  
vols.  
Constant de Rebecque, Samuel—  
Camille. 4 vols.  
Dyer, T. H., ed.—Pompeii.  
Horatius Flaccus—Poemata.  
1544.  
The British Drama. 2 vols.  
Ward, James—History and Methods  
of Ancient and Modern Painting.  
3 vols.  
Marriott, Charles—Modern Move-  
ments in Painting.  
Magrenon, Renee—Livres Ornes et  
Illustrés en Couleur Depuis le 15e  
Siècle.  
Withers, Hartley—The Case for  
Capitalism.  
Macnaughtan, Sarah—My Canadian  
Memories.  
Hardy, M. E.—Geography of Plants.  
Hardwick, J. C.—Religion and  
Science from Galileo to Bergson.  
Newman, F. W.—Phases of Faith.  
Froude, J. A.—The Nemesis of Faith.  
Modern Language Association—Year  
Book of Modern Languages. 1920.  
Graham, J. W.—The Harvest of  
Ruskin.  
Codd, Edward—Magic in Names and  
in Other Things.  
Dante, Alighieri—Epistolae. Toyn-  
bee, tr.  
Walters, L. D'O., ed.—Anthology of  
Recent Poetry.  
Bail, Augustus—Guide to Carlyle.  
2 vols.  
Public School Verse, 1919-20.  
Pollard, A. W.—Shakespeare's Fight  
With the Pirates. Ed. 2 rev.  
Foot, William—Shakespeare in the  
Theatre.  
Whithouse, J. H., ed.—Ruskin the  
Proprietor, by John Masefield (and  
others).  
Marshall, F. H.—Discoveries in Greek  
Lands.  
Browne, G. F.—King Alfred's Books.  
Brodsky, S.—A First Course in  
Nomography.  
Abraham, Israel—Poetry and Reli-  
gion. Foreword by A. Quiller-  
Couch.  
Berington, Simon—Memoirs of Sig-  
nor Gasdento di Luoca. 1737.  
Temperley, H. W. V.—History of the  
Peace Conference of Paris. 3 vols.  
1-3.  
Oulpin, Milaie—Psychonouroses of  
War and Peace.  
Tansley, A. G.—The New Psychology  
and Its Relation to Life.  
Low, Barbara—Psycho-Analysis. In-  
roduction by Ernest Jones.

Ivory.  
Piedie, R. A.—Outline of the History  
of Printing.  
British Museum, Natural History—  
Catalogue of the Specimens of  
Hemiptera Heteroptera in the British  
Museum. 2 vols.  
Meyer, Arthur—Morphol. u. Physiol.  
Analyse der Zelle der Pflanzen u.  
Tiere.  
Canadian Encyclopedia Digest.

## MEDICINE COMPLETES SEMI-FINAL

Med. '23 Wins Decisive Vic-  
tory Over Med. '22.

SCORE: 6-2.

Deep Interest is Being Main-  
tained in Inter-Class  
Hockey.

The crushing defeat administered to Med. '22 marked the consummation of the efforts of Med. '23 to gain the championship of the Faculty and to the right to play Arts and Science for the Inter-Faculty title. The victorious career of Med. '23 has absorbed completely the attention of the hockey fans of Medicine and a huge crowd assembled at the Campus rink at 6.35 to see the two teams play. It required only a few moments for the critical spectators to perceive that the result was not in doubt as the Third Year men presented a stone-wall defense and a forward line which played perfect combination. Although there was great rivalry between the two teams, the game was clean and only one minor penalty was imposed. From the start Medicine '23 were the aggressors and kept the play around their opponents goal. Parlow scored the first goal after three minutes of play and shortly afterwards duplicated his performance. After having two goals scored against them, the Fourth Year defence steadied down and played a brilliant defensive game for the remainder of the period. Naud made several fine rushes but lacking support his efforts to score were in vain. After the start of the second period Med. '22 played fast hockey, but the defensive playing of Ackman and the back-checking of Lawson frustrated their attempts to score. Parlow again started scoring for '23 after six minutes of play, and two minutes later made the score 4-0 for Med. '23. At this stage the Fourth Year team started a rally and McCormick scored. Their hope of catching up was short-lived because Parlow scored his fifth goal of the game making the score 5-1. Shortly after this Med. '22 scored a goal which was fluky to say the least. McCormick shot from centre ice and the puck, after being touched by two of the defense men, was found in the corner of the net. In the closing moments of the game, McElligot scored after carrying the puck the entire length of the ice. The game ended with Med. '23 at the long end of a 6-2 score.

For the winning team, Cook in goal played his usual brilliant game. McElligot and Ackman showed up well on the defense, the former showing flashes of speed and brilliant stick-handling. Parlow, who scored five goals for the winners, played a spectacular game. The goals for which he was responsible came from combination play with Lawson and Mair. Many laudatory remarks can be made about the losing team. McCormick and Naud worked hard on the defense but the work thrust upon them was too great due to the inability of the forward line to back-check. Imbleau, at centre, showed up well and Summers was effective until he was forced to retire in the final period with a broken skate. The game was ably handled by Mr. Borden, who kept the play well in hand throughout.

The teams lined-up as follows:  
Med. '23. Med. '22.  
Cook.....Goal..... Davis  
McElligot.....Defense..... McCormick  
Ackman..... "..... Naud  
Mair.....Forward..... Imbleau  
Parlow..... "..... Summers  
Lawson..... "..... Wells  
Wilson.....Subs..... Copeland  
Campbell..... "..... McIntosh  
Elderkin..... "..... Watson  
Hamilton..... ".....

The scoring was as follows:  
First Period.  
Med. '23—Parlow . . . . . 3.00  
Med. '23—Parlow . . . . . 8.30

Second Period.  
Med. '23—Parlow . . . . . 6.00  
Med. '23—Parlow . . . . . 2.00  
Med. '22—McCormick . . . . . 2.30  
Med. '23—Parlow . . . . . 1.45  
Med. '22—McCormick . . . . . 3.00  
Med. '23—McElligot . . . . . 3.30

Mutton is the most nourishing meat.

Boost the "Daily" when you buy.  
And do your shopping early.

R. V. C. students who may be in-  
terested in "Dry Rot" through the  
course which they are following will  
be welcomed at an open meeting of  
Architectural Society at 8.30 this  
evening in the Engineering Building.  
Mr. R. J. Blair will give an illus-  
trated address on "Decay of Timbers  
in Buildings."

Tremear (and others) eds. 3 vols.  
Campbell, Robert, and others, eds.—  
Rulong Casas. Extra Annotations.  
2 vols.  
Gerlin-Lajole, Henri, ed.—Code de  
Procédure Civile de la Province de  
Québec.

## CLUB PHOTOS TO BE TAKEN FOR YEARBOOK

All In Before February  
10th.

LARGE LIST.

Those Not Included Get in  
Touch With the Yearbook  
Executive.

The following is a list of the Clubs  
and Societies whose pictures are to  
appear in the McGill Year Book this  
spring. Any Society whose name is  
not included may make arrangements  
for inclusion by getting in touch with  
the Year Book Editorial Board at the  
Union. Executives of Societies are  
requested to see about having their  
picture taken as soon as possible. A  
regular schedule has been drawn up  
by the Editors, and any Society whose  
picture is not taken by Feb. 10th will  
not appear in the book.

Students' Council.  
Union House Committee.  
Daily Staff.  
Y.M.C.A. Cabinet.  
Physical Education Department.

Executives.—  
Literary and Debating Society.

ELINOR GLYN COMES  
AGAIN TO AMERICA  
TO WRITE SCENARIOS

Elinor Glyn, who is paying her  
fourth visit to America, is still an  
attractive woman but her attrac-  
tiveness is rather of personality and men-  
tality than physical pichitude. She  
talks in epigrams. Her powers of ob-  
servation seem to be exceptionally  
keen and she has no hesitancy in voic-  
ing her opinions. Perhaps that is why  
she is so popular as a speaker at club  
luncheons. Our society women like  
to be told the truth about themselves  
provided, of course, that the teller has  
the required social qualifications. The  
fact that Madame Glyn has been pre-  
sented at nearly every court in Europe  
leaves no doubt as to her eligibility.  
She was a devoted wife for many  
years, her husband dying five years  
ago and she is the mother of two  
grown daughters. Her vamping has  
all been done in her mind and projected  
via her pen into her novels.

Her Gift of Writing.  
To the discovery that she had the  
gift of writing Madame Glyn ascribes  
the fact that she is alive to-day. Born  
on a country estate in England she  
was married to a neighboring country  
gentleman, known in England as a  
squire, while in her early twenties.  
At twenty-five she was in ill health  
and life held out little promise to her.  
She was an intimate friend of her  
nearest neighbor, the Countess of  
Warwick, of Essex.

One day in rummaging through some  
old trunks she came across an old  
diary which she had written when a  
schoolgirl. Through her family con-  
nections she had been a constant vis-  
itor at the houses of the great and near  
great. Many of her impressions she  
had recorded in this diary. While  
glancing through it she suddenly con-  
ceived the idea of writing a story giv-  
ing these impressions through the in-  
genuous eyes of an innocent schoolgirl.

## CONGOS DEFEAT DIOCESAN MEN

End of First Round in Inter-  
Theological Colleges  
League.

The Congregational College basket-  
ball team defeated the Diocesans in  
Molson Hall last night by the decisive  
score of 32-14. The Congregationals  
assumed the lead right from the start,  
and although the Diocesans played  
gamely, the final outcome was never  
in doubt. At times the Diocesans  
played good combination, but for the  
most part their play was marked by  
a lack of team-work. Often their  
men would hesitate before passing the  
ball, thus giving their opponents the  
opportunity of checking them more  
effectively. Their shooting was also  
somewhat erratic, although Norman  
showed some skill in shooting penalty  
baskets, and Egg scored a couple of  
nice shots in the final period.

The Congregationals on the other  
hand played good combination, and  
the shooting of their forwards was  
much more accurate. Bronson did  
one fine shooting for the Congreg-  
ationals and scored no less than 20  
points for his team. The Congo  
forwards pulled off some nice com-  
bination especially in the last period,  
and their guards worked hard to keep  
the ball up forward.

Fouls were quite frequent during  
the game, but they were caused more  
by lack of knowledge of the rules  
than by intention.

This game was scheduled to take  
place before the Christmas holidays  
but had to be postponed till after.

The Presbyterian College team is  
now ahead in the Inter-Theological  
Colleges Basketball League, as they  
won all their games before the holi-  
days. Next week the second round  
of this league will commence, when  
the Congregationals meet the Wes-  
leyans. The Congregationals have  
held the championship of this league  
for some years and although their  
strong opponents, the Presbyterians,  
defeated them in their first game  
this season, they hope to register a  
win in their next game with them.

The Presbyterians have their old  
stand-by, Woodhouse, back with them  
again, and are stronger than ever,  
but the Congregationals have a  
smooth working team that promises  
to take some beating.

The teams lined-up last night as  
follows:

Diocesans. Congregationals.  
Norman.....Forward. . . . . Moore  
Peterson..... " . . . . . Sanders  
Cameron.....Centre. . . . . Bronson  
Radmore.....Guard. . . . . Smith  
Hatcher..... " . . . . . Whitmore  
Egg.....Sub. . . . . Somerville  
Lidstone..... " . . . . . Eddy

"Tips" amounting to \$50 daily are  
said to have been made by a boy em-  
ployed to open motor car doors out-  
side a big Paris restaurant on the  
boulevards.

The result was "The Visits of Eliza-  
beth." She read the story to her hus-  
band and he thought it very amus-  
ing. He was a friend of the publisher  
of the London World, a weekly maga-  
zine, and one day he happened to  
mention that his wife had written a  
rather clever little story. The pub-  
lisher expressed a desire to see it.

"I'll never forget the day I received  
a telegram from that man saying  
'Elizabeth will do.'" Madame Glyn  
said. "I was lying in a hammock on  
the lawn reflecting on how long I  
would have to live. That message  
seemed to revive me and from that  
day I began to recover my health."

The story was published in the  
World as a serial but its immediate  
popularity caused it to be withdrawn  
before its completion and published  
in book form. It had been published  
anonymously and Madame Glyn had  
a great deal of amusement listening  
to the comments of her friends. They  
wondered who on earth could have  
written it, as many of the anecdotes  
and experiences told in the story could  
have been known only to one who  
moved in the inner circle of society.

Her Greatest Success.

"Three Weeks," her greatest suc-  
cess, was her fifth book. She had al-  
ways been interested in the character  
of the Slav, especially the Russian  
women. While on a visit to a friend's  
country house in Scotland she became  
attracted by the clean-cut, innocent  
minded appearance of a young man  
who was also a guest there. She pic-  
tured him under the spell of a Russian  
siren. The result was "Three Weeks"  
which took her six weeks to write and  
has brought her a fortune in royalties.  
"Three Weeks" has been translated  
into every known language except  
Spanish and still sells in the United  
States at the rate of more than 25,000  
copies a year. "Three Weeks" also  
brought an invitation to the Russian  
court where she remained six months  
as a guest of the royal family, who  
were later murdered by the Bol-  
sheviks. It was her sympathetic in-  
terpretation of the Slav woman that  
won her this honor. While at the  
Russian court she wrote "His Hour."

Although she has written a score of  
novels Madame Glyn seldom reads  
fiction. Her idea of light reading is  
a copy of Gibbon or Stern with an  
occasional dip into the classics of  
which the "Letters of Lucian" is her  
favorite.

Madame Glyn came to America, this  
time, under contract to a big motion  
picture concern for which she is to  
write scenarios. She is enthusiastic  
over the possibilities of the new me-  
dium of expression.

# NA-DRU-CO Tooth Paste

protects your teeth as it cleans  
them—for it is antiseptic, and  
absolutely free of grit or any  
other substance which might  
scratch or otherwise harm the  
enamel of the teeth.  
Two fragrant, agreeable flavors.

# ALL YEAR LONG

We have preached the doc-  
trine "Patronize our ad-  
vertisers."

There's a reason.

The people who advertise  
in The McGill Daily are the  
people to whom we owe  
what business we have to  
give.

They keep us going. We  
ought to do the same for  
them.

So give our advertisers a  
boost every chance you  
get.
